- Entrepreneurship event
- Q2 lunch evaluation
- Shell excursion

Snellius pooling

The first Snellius event was a great succes. After the nice new year's drinks at PSOR, with snacks from different countries, a wok meal was arranged. Full of spirit and with a filled stomach, most of the attendees went to the pooling centre. Some were able to put the balls in every pocket of their choice, where others excelled in providing instructions and enjoying a drink. After this, the evening ended with drinks in the Bebop. It was a lovely evening!

Open position Waterlab

TU Delft will start a joint program with the secondary schools in Delft to study the impact of (extreme) rainfall on the city. This program, called WATERLAB, is based on a dedicated network of weather stations in the city combined with weather radar data from the TU Delft rainfall radar. In this program a position for a **student assistant** is now open to help with:

- Defining a research and education program for secondary schools
- Coaching of school pupils
- Technical support for the weather station network in Delft
- Webmastering

2013 FEBRUARY						
SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
					1	2
3	4	5	6	7	8	9
10	11	12	13	14	15	16
17	18	19	20	21	22	23
24	25	26	27	28		

Agenda

February 17
15.30 – 18.00

YES!Delft Students
Molengraaffsingel 2-14

Entrepreneurship event

"Practische Studie" (PS) and YES!Delft Students organize an activity about entrepreneurship in the World of civil engineering. During this afternoon students will get an insight in the possibilities of starting an own business after graduating. Several 'role models' will explain how they did this. The program will constitute of presentations of YES!Delft, VP Delta and two entrepreneurs. Free drinks are served afterwards. Subscribing for this event can be done via <http://www.aanmelder.nl/civil>

February 19
12.30 – 13.30

Room 2.72

Q2 lunch evaluation

Because of the good response to the previous Geoscience and Remote Sensing course evaluation, we will do another one for Q2. You do not need to bring lunch (it is arranged free lunch again), but don't forget to bring your unvarnished opinion and nice anecdotes.

March 11
13.00 – 17.30

Shell Learning Center
Lange Kleiweg, Rijswijk

Shell Excursion

Snellius has organized an excursion to the Geomatics department of Shell, in Rijswijk. A more detailed program will follow, but the day will consist of talks from different Shell employees in our field of study. The excursion is focused on students, but also PhD's are welcome to join. There will be drinks afterwards. If you would like to attend, please subscribe through the following link: https://docs.google.com/forms/d/1dWOW9oCxjvy4-V_YGRy8nFMbRmVUnmNwCpSNlIe-nNI/viewform

Snellius:

Snellius@tudelft.nl
Room: 2.12.6
Open: Monday 12.30 – 13.30
